

Intertek Caleb Brett UK Laboratories offer accurate and rapid turnaround analysis of Petroleum Products, Petrochemicals, Lubricants and other types of hydrocarbons and consumer products.

Our network of Laboratories offer testing to ISO, IP, BS, EN and ASTM standards, offering fast analysis and results when you need them. Our laboratories offer a service to meet with your timetables, minimising down time and delays.

A wide range of analytical techniques are on offer, thus maximising the information available for solving industry and customer-specific problems.

- **Expansive laboratory capabilities** with XRF, ICP, AA, GC, HPLC, FTIR, micro-analysis capabilities
- **Sampling to BS / ASTM and EN Standards**, this ensures full quality control
- **Independent analysis** and problem solving expertise
- **Training** in product testing and inspection, and instrument-specific analytical techniques
- Refinery, chemical and manufacturing **plant support**; rapid response on-site
- All aspects of **fuels and lubes analysis** including product certification. All relevant specifications are covered including EN228, EN590, BS 2869, ISO 8217, DEF STAN 91-90 (Avgas), DEF STAN 91-91 (Jet A-1)
- Expert witness **legal support** for claim / counter claim and commercial liability issues
- **Strategically based labs** that minimise transport delays
- Full **crude oil assay** department at Aberdeen

Key Clients

Our current clients include Oil Majors, Shipping and Transport companies, Fuel suppliers, blenders, Exploration, Refiners and Traders. We also undertake R & D work and test a wide range of consumer products.

Turnaround time

Most analysis work is executed within 2-4 days of arrival of the samples and a rapid turnaround 24 hr service is also available. All analytical work is accompanied by a written analysis report in both hardcopy and electronic format containing all data, corresponding interpretations and recommendations.

Confidentiality and IPR

Intertek considers all work undertaken to be confidential, unless explicitly stated otherwise by the customer at the point of enquiry. Our policy is that Intellectual Property Rights (IPR) concerning results re-
